Established in	July 31, 1937	Employees	13,607 (Consolidated) 144 (MES Only)
Capital	¥44,385 million		

### Origins of the new company name

E&S is created using the initial letters of Engineering & Shipbuilding, which is part of the former company name, of Mitsui Engineering & Shipbuilding. However, its meaning goes beyond these two words. E implies Environment and Energy, part of the business areas we will be focusing on. S suggests Social Infrastructure, Solution, Systems and Service. Each of these are also part of the areas in which we will be working intensively. Thus, E&S has extensive significance. E&S symbolizes our corporate stance of providing a wider array of solutions more broadly with Engineering & Shipbuilding as the starting points, where we have cultivated our strengths and beyond.

### The concept behind our logo

[ The new logo: M on the Earth ]

The blue under M represents the horizon of the Earth. It expresses the future expansion of the business fields of the Mitsui E&S Group. On this line, you see M in dynamic black, which gives an impression of solid potential for future growth and presence. Between the blue line and the M hide two arrows, facing each other, to express the Group's determination to create new value for the planet by bringing together diverse people and technologies.
